225-260 The numbers 225-240 inclusive were reported by the Surveyor General to the Commissioners of the Lottery as square lots and placed in the wheel accordingly. After the names placed opposite these #'s being 9 in all, were drawn, and application made for Grants, it was found that no such numbers existed. Whereupon it being considered by the Commissioners that to permit this error to remain unaltered would be a manifest injustice to the persons who drew them in as much as they must otherwise have drawn prizes, there being no blanks in the wheel. It is deemed proper and just that other numbers be drawn by the names of the persons who have already drawn these numbers, and that when the remaining numbers in the wheel are drawn out, they be discarded and others drawn in their stead.
