This index provides subject access to Thirty years of *Muscogiana*. Articles are indexed under broad subject headings. Although some generic subject headings are used, most headings relate to aspects of Columbus, Georgia, history and genealogy. Articles treating non-Columbus locales are indexed under the geographic name of the locale. There are no cross-listings; an article is listed only once — under the main subject that it treats.

Please note that in addition to the personal name index in the back of each issue of *Muscogiana*, a cumulative-name index for all issues is available on the Muscogee Genealogical Society's web site, www.muscogeegenealogy.com, at Columbus State University Archives and at the Main Branch Columbus Public Library Genealogy Room. The cumulative index is updated after each new issue is published.
