SUBJECT INDEX TO ARTICLES IN MUSCOGIANA, VOLUMES 1-9 (1989-1998)
By Callie B. McGinnis,
Assisted by Rebecca V. Adkins

This index provides subject access to ten years of Muscogiana. Articles are indexed under broad subject headings. Although some generic subject headings are used, most headings relate to aspects of Columbus history and genealogy. Articles treating non-Columbus locales are indexed under the geographic name of the locale. There are no cross-listings; an article is listed only once—under the main subject that it treats. Under each heading, articles are listed in chronological order by publication date.

Please note that there is a personal name index in the back of each issue of Muscogiana. As yet a cumulative personal name index to all issues has not been published.
